“We believe that business, at its best, serves the public good, empowers people around the world, and binds us together as never before”

- Apple's CEO, Tim Cook

Nexia's history

The origins of Nexia go back to the early 60's with Oppenheim Appel Dixon & Associates in New York and Spicer and Pegler in London. Being leaders in their financial sector markets at Wall Street and in the City of London needed cross-Atlantic support for their clients: Spicer & Oppenheim International was born. Over the years, S&O's size grew steadily. However, network movements required a name change.

In 1991, Nexia was legally founded. Being a derivation from "nexus", it signifies "connection, link or tie". With the creation of the "network" definition and to emphasise its leading position, Nexia was seeking growth and agreed with SC International to merge in 2007.

Since then, Nexia has continuously expanded its reputation, quality and size. It is widely recognised as a leading accountancy and consulting network for large, mid and small cap clients around the globe.

Nexia - a member of The Forum of Firms

Nexia is a proud member of the “The Forum of Firms” (FoF), part of IFAC. The Forum of Firms is an independent association of international networks of firms that perform transnational audits.

The Forum’s objective is to promote consistent and high-quality standards of financial reporting and auditing practices worldwide. The FoF is bringing together firms that perform transnational audits and involving them closely with IFAC’s activities in audit and other assurance-related areas.

Forum of Firms members must demonstrate their commitment to adhere to and promote the consistent application of high-quality audit practices worldwide.

Nexia does not stop there. The quality services delivered across all sectors of audit, tax and advisory are a foundational commitment by the Nexia network and its member firms.

Our world in numbers

“Nexia is a leading global network of independent accounting and consulting firms. When you choose a Nexia firm, you get a more responsive, more personal, partner-led service, across the world”
